

# 6th National Laser & Cosmetic Medicine Conference

Marriott Resort & Spa, Surfers Paradise, Qld | 25 - 26 September 2010

## TOPICS & THEMES

- ▲ Recent advances in laser and light technologies
- ▲ Laser panel discussion
- ▲ Photorejuvenation techniques
- ▲ Botulinum toxin type A
- ▲ Dermal fillers - new techniques and products
- ▲ How to manage complications from botulinum toxin A & dermal fillers
- ▲ Interactive live workshops
- ▲ Training in botulinum toxin A and dermal fillers
- ▲ Skin conditioning
- ▲ Non surgical facial enhancement
- ▲ The non surgical thread lift
- ▲ Recent advances in hair transplantation - the micrograft

*The Laser and Cosmetic Conference will attract medical professionals from hospitals, private centres and general practices who are seeking to update their skills or expand their expertise into this discipline. This practical forum will have two main components running concurrently. The first is a program for medical practitioners, which has been approved by the Royal Australian College of General Practitioners QA and CPD program, and the second is 'Laser Concepts in Healthcare', primarily for nurses and paramedical staff. There is also an intensive pre-conference 3-day theoretical and practical workshop aimed at medical practitioners, new to the field. Sharron Phillipson, Convenor*
